Continuation of 3. NOTE: the deletion of the words "an optionally" now require the hydroxylated biomolecule and now require further search and examination because the hydroxylated biomolecule was excluded from the previous search and examination.

Continuation of 13. Other: Applicant's request for reconsideration of the present application with regard to the present objections and/or rejections in light of the amendments to the claims proposed and presented in the after-final amendment has been made. In light of the fact that the proposed amendments to the claims will not be entered into the record for the reasons supra, Applicant's remarks directed to the obviation of these objections and/or rejections as a result of the proposed amendments are not found persuasive. Accordingly, in the absence of any additional remarks or arguments regarding the patentability of the instant claims pending at the time of the final rejection, the Examiner defers to the reasons already set forth in the final rejection dated May 21, 2008.

/Ardin Marschel/ Supervisory Patent Examiner, Art Unit 1614
